Specialized Treatment Means A Higher Degree of Care

The only physician specializing in the diagnosis and medical/surgical treatment of the foot and ankle is a Podiatrist. National studies have shown that foot problems, when treated by podiatrists, typically have more satisfactory results and a quicker recovery time than when treated by other types of physicians.

Our Special Style of Foot and Ankle Care

While our practice offers the most modern and innovative podiatric services available, we feel our greatest distinction comes from the personal attention we give each patient.

Patients thank us for taking the time to listen and respond to their individual needs and this commitment has been the hallmark of our practice.

Your Feet Deserve Skilled Care

Many patients tell us they have delayed getting treatment until they cannot stand their pain anymore. Typically, these patients have suffered in silence from bunions (enlarged joint at base of big toe), neuromas (pinched nerve in forefoot), hammertoes, ingrown nails and heel pain. They have delayed seeing a physician because of the imagined inconvenience to their schedule, expecting that the treatment will be uncomfortable, or hoping that the condition will improve with time. But, most often, these conditions do not resolve on their own without professional intervention. After treatment, our patients commend us for our

Our gentle, caring approach can relieve your foot pain and get you back on your feet again.

gentle approach and tell us that they regret not having come in sooner.

Appointments

We continue to accept new patients and offer same day visits for emergencies. In an effort to respect our patients' time, we try very hard to stay on schedule. We know you don't like waiting. Because of this, we ask that you come to your appointment on time and we will do our best to stay on time, too. If you are more than 15 minutes late for your appointment, it is possible that we will have to reschedule your appointment.

A lot of time is invested in preparing for your visit and your doctor sets aside time just to see you. We ask that if you are unable to keep your scheduled appointment, please call us 24 hours ahead to reschedule or cancel your appointment.

"For many active people, the correction of long endured foot problems is much less troublesome than they expect." – Dr. Jerold Fleishman

We treat all types of adult and children's foot problems, stressing preventive care and early medical intervention. Common problems that we treat are:

- Bunions
- Foot & Nail infections
- Ingrown Nails
- Arthritis, Gout
- Heel Pain
- Diabetic Foot Care
- Neuromas (pinched nerves)
- Hammertoes
- Toe joint (implants) replacements (for severe arthritis)
- Emergency lacerations
- Plantar Warts
- Sports-related injuries
- Fractures
- Custom Orthotics
- Children's gait problems (intoe, outtoe)
- Ankle Sprains

Emergency Services

When our office is closed, the covering physician can be reached 24 hours a day, including weekends, for emergencies. You can reach the doctor on call by dialing the office telephone number and getting the doctor's pager number.

Referrals

If your primary care physician has sent you to our office and your health plan requires a "referral", you have the responsibility to communicate with your PCP prior to the appointment to allow for the mailing or faxing of the documentation. If the referral has not been received prior to your visit, you will be held responsible for the cost of the visit.

An active lifestyle is important to you... let us get you back on your feet.

Billing and Insurance

Our responsibility is to keep accurate records and bill appropriately; your responsibility is to provide us with up-to-date information, pay your co-pays and to know the benefits and limitations of your insurance plan. We are always available to answer your questions about your account. Your insurance company requires that you bring your insurance card with you to each appointment and that you pay your co-pay, which is due at the time of service.

You are welcome to call us to check if we are participating providers with your insurance plan. For contracted insurance plans we will submit claims on your behalf. Otherwise, payment is expected at the time of your appointment. MasterCard and Visa are accepted. Payment for non-covered services, such as supplies, is required at the time of service. You are welcome to call our billing department if you have any questions.
